

Gleeds Global Footprint

Commitment to achieving Net Zero

Gleeds is committed to being net zero by 2040 across our scope 1, 2 and 3 emissions.

Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

Baseline Year: 2019	
Additional Details relating to the Baseline Emissions calculations.	
This is the first year that Gleeds is reporting on its carbon emissions externally. Given that 2020 was not a standard year in terms of emissions (due to the impact of COVID-19), 2019 is the most recent year to be used as a baseline.
